### DANISH DESIGN COMPANY MANOSTILES OPENS WEBSHOP

Everything has been moving fast for the Danish design company Manostiles. What started as a collection of patterned storage boxes has developed into a range of interior design for the entire home. The current collection ranges from our classic storage boxes to children's cutlery, decorative tins, melamine plates and bowls. January 2012 sees the launch of a brand-new collection of tins and storage boxes, with new designs as well as colours to look forward to. This is in addition to our new collection of textiles, introducing a range of organic bedding for both adults and children, organic tea towels as well as pillows and oven mitts.

If you would like practical advice on how to create calm and order in your home, Manostiles' webshop promises plenty of inspirational tips and tricks. Find out how to minimise clutter, store the kids' toys and provide your home with a clean, calm expression without losing its individual personality.

The webshop promises to be a lively shopping experience with competitions, guides and new products several times a year. Manostiles will keep you up-to-date with the latest trends, ensuring that you get one step closer to your dream home.

Manostiles offers worldwide, international shipping and orders are shipped from Denmark within three working days. VISIT THE NEW WEBSHOP AT [SHOP.MANOSTILES.COM](http://SHOP.MANOSTILES.COM)
